

Jagran Incubation & Entrepreneurship Cell (JIEC)

INTRODUCTION

To provide a platform to prospective innovators to convert their ideas / knowledge into useful products/services with help of best industry orientation and support.

“TO SUCCEED IN LIFE & ACHIEVE RESULTS, YOU MIGHT UNDERSTAND THREE MIGHTY FORCES - DESIRE, BELIEF & EXPECTATIONS”-(BY APJ ABDUL KALAM)

The goal of the Jagran Incubation and Entrepreneurship Cell (JIEC) at JIM Kanpur is to promote Young budding entrepreneurs among our students and thereby facilitate practical application of fund raising & fund management knowledge for public use. JIEC wishes to foster an entrepreneurial culture, by providing the students, alumni, and faculty, opportunities to transform their creative & innovative business ideas to reality. To provide a conducive working environment to the incubates to nurture their innovative ideas & bring new innovations in teaching and also for student learning concepts.

JIEC AIMS FOR INCUBATES & YOUNG ENTREPRENEURS

- 1- Will aim at seeking technology & solution which will revolutionize enterprise, corporate, people & society.
- 2- Will aim at covering core entrepreneurship & incubation themes such as skill- ups, recruitments, collaborations, affiliations, accreditations, trainings, consultancies etc.
- 3- Preparing our action plan for making JIEC a prominent hub and targets to achieve and become top three in next one year in Kanpur and among the top achiever in State.

HOW DOES JIEC INCUBATION CELL WORKS

Collaboration

- Bringing industry thought leaders together with academic experts to seed innovative thinking and to enable collaboration in Design, Technology, Products, and Business models.

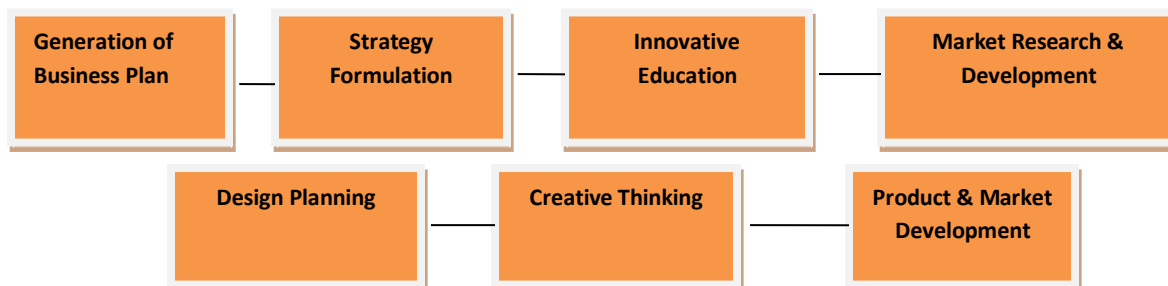

Education

- Our Interdisciplinary Educational mission seeks to engage faculty and students in close collaboration with corporate partners to develop and commercialize new products.

Incubation

- Support Innovation activities through the use of the innovation center facilities and capabilities

BENEFITS OF JIEC – TO YOUNG ENTREPRENEURS, SOCIETY & INSTITUTE

- To forge a strong collaboration between the university and industry and to find solutions to technological problems locally. This will benefit faculty and students by usefully utilizing their full intellectual potential
- Local and International Employment opportunities for students (during study and upon graduation) and for Faculty.
- Appreciable incentives for faculty from the revenue earned through commercialization of R&D
- Encouragement to faculty to obtain patents for their work
- Future development of Incubation Center to a Technology Park
- In the long run the presence of major international companies will help keep the university abreast of the latest technological trends and developments

- Close links and collaborative efforts between the technology park businesses and tenants and the university faculty, researchers and students leading to joint research projects, especially for graduate and doctoral students
- Work experience programs for undergrads (part- and full-time jobs for university students) and custom-designed education programs for tenants and the industry
- To promote small tech-specific businesses and start-ups through an Incubator program (including Ex-students benefit)
- Commercialization of university research
- To get exposure to global innovation
- To attract significant technology driven local and foreign investment in the Incubation Center and technology park in the long run, providing a strong point of presence for major national and international companies and enterprises
- Sharing of university equipment and laboratories at some profit
