

Report on Industrial Visit to Uttar Pradesh Vidhan Sabha & Dial 112

Event: Industrial Visit to Uttar Pradesh Vidhan Sabha & Dial 112

Date: Tuesday, 13 October 2026

Participants: 29 MCA Second-Year Students, accompanied by 2 faculty members

Faculty Coordinators: Mr. Aman Kesharwani and Ms. Shubra

Venue: Uttar Pradesh Vidhan Sabha & Dial 112 Headquarters, Lucknow

Jagran Institute of Management organized an industrial visit for MCA second-year students to the Uttar Pradesh Vidhan Sabha and Dial 112 Headquarters, Lucknow. A total of 29 students, accompanied by two faculty members, Mr. Aman Kesharwani and Ms. Shubra, participated in this educational and experiential visit. The visit aimed to provide students with practical exposure to legislative functioning, public administration, emergency response systems, and the role of information technology in large-scale public service operations.

Visit to Uttar Pradesh Vidhan Sabha

The group departed from the campus at 8:00 AM and reached the Uttar Pradesh Vidhan Sabha at approximately 11:00 AM. During the visit, students participated in a guided tour of the Assembly premises and gained insights into its functioning, administration, and technological infrastructure.

A key highlight was the opportunity to meet the Hon'ble Speaker of the Uttar Pradesh Vidhan Sabha, Mr. Satish Mahana. He addressed the students, motivated them, and shared valuable career guidance and insights for their professional growth. Lunch was also provided to the students at the Vidhan Sabha.

The visit helped students develop a better understanding of the democratic process, legislative functioning, and the use of modern technology and software systems in supporting administrative operations.

Visit to Dial 112 Headquarters

The students then proceeded to Dial 112, Uttar Pradesh's emergency response service, where they were welcomed and guided by senior police officials. The students attended a briefing and a short conference meeting on the functioning of the emergency response system.

They learned about the end-to-end emergency response process, including call reception, software-based call routing, coordination, and the dispatch of emergency assistance. The session highlighted how software applications, communication systems, and technology support real-world public service operations.

This practical exposure enabled the MCA students to connect their classroom learning with the application of information technology in governance, administration, and public safety.

Conclusion

The industrial visit was a valuable blend of learning, motivation, and practical exposure. It offered MCA second-year students meaningful insights into legislative governance, public administration, and emergency response systems, while demonstrating the importance of technology in large-scale organizations. The interaction with the Hon'ble Speaker and the briefings by officials at Dial 112 made the visit both educational and inspiring. The group returned to the campus at approximately 8:00 PM, concluding a memorable day of learning and shared experiences.

Jagran Institute of Management expresses its sincere gratitude to the officials and staff of the Uttar Pradesh Vidhan Sabha and Dial 112 Headquarters for their hospitality, guidance, and informative sessions.
